Class Descriptions and Qualifications:

Agility 101: The beginning of the fun - we'll teach your dog to jump through hoops, literally! You'll get an introduction to the wonderful world of dog agility. Obstacles plus foundation for future agility classes are taught.

Agility 201: Part 2 of Introduction to Agility. This continues where Agility 101 left off, rounding out the introduction to obstacles and finishing the foundation work. Must have taken Agility 101, or permission of instructor/AgileDogs.

Agility Handling: Which cross when, and what do you mean by front cross?? We will teach you what all the crosses mean and how/when to use them. Any level dog welcome, must have completed Beyond Beginners or approval of instructor.

Beyond Beginners Agility: Must have taken and passed Agility 201 class. Students will work to full height on equipment; plus sequencing & jumping skills, and basic handling.

Intermediate Agility: Approval of Instructor; must be comfortable on all contacts (see saw can be at a lower height) and have made progress on weave poles training. Weave poles worked to independence and see-saw to full height; plus crosses and other handling moves, obstacle discrimination and contact proofing, and course analyzing skills.

Building Distance in Agility: This class is for those of you who are looking to either train from scratch or expand on existing distance skills for games such as USDAA and UKI Gamblers, CPE Jackpot, and AKC FAST. It's also useful for standard courses to give you more options for handling your dog. Dogs should be proficient on equipment, Intermediate level or above.

Agility Games: Do you want to play some of the fun games you hear about? Bored with numbered courses? We will go over a different game each week, first teaching you how to play, then helping you to succeed at it.

Crate Games and Mat Work: This class is for any age dog or puppy. We will create a dog that loves to drive to and stay in his crate and on his mat!

Weaves Skills: This class is to help your dog be more proficient at weave poles. Class will cover both retraining dogs to have faster and more reliable weave performance, and training beginner dogs from the ground up.
